Gen. M. W. Bansom has accepted an invitation to deliver the annual literary address before the Philanthropic and Bannock Societies of Davidson College on the 28th prox.—Raleigh Sentinel.

The Messenger learns that Prof. E. W. Adams has resigned his position as President of the Goldsboro Female College, Rev. E. Z. Graves, of Clinton, N. C., will assume the management after the close of the present session.

The Charlotte Democrat says: The Trustees of the Presbyterian Church in the United States had an appointment to hold a meeting in Charlotte on the 11th inst. A quorum not being in attendance, no business was transacted.

The Philadelphia Enquirer says "it is not at all improbable that the Senate, during the present session, will discuss and dispose of the claims, as United States Senator, of ex-Governor Z. B. Vance, of North Carolina."

The Goldsboro Messenger says that the prospects for the coming cotton crop in that section are not very encouraging just now. A good deal of the cotton planted this year was up and exposed to the recent cold and rainy weather and it is feared that the crop is greatly injured.

The Raleigh Telegram says: We learn that the Republican party will establish an organ in this city within the next week or ten days, with Mark Erwin, Esq., as editor. The type and fixtures have already been ordered. It is to be called the "Carolina Era," and is to be issued tri-weekly.

Saturday afternoon being the first fair since the 10th inst., a number of the ladies of Raleigh repaired to the Confederate Cemetery there, and decorated the graves with flowers. On Monday afternoon the ladies in still larger numbers, assembled at the ground and completed the decoration.

During the present season, light houses are to be constructed, under the direction of the engineers of the Light House Board, as follows: In the new light house on the Elizabeth River, and a first order light house on the Elizabeth River, and a first order light house on the Elizabeth River.

J. G. Bromell, of Raleigh, has had his claim against the U. S. Government approved by the Commission.

The Newbern Board of Aldermen, as we learn from the Journal of Commerce, have offered \$250 reward for the incendiaries that infest that city.

A bald-headed eagle, measuring 6 feet from tip to tip, shot and wounded by a lad near Wilton, Granville county, is now on exhibition in Raleigh, says the Telegram.

LOGAN'S TRIUMPH.—On Monday of last week, Judge Logan, at Gaston Superior Court, in the case of the State vs. David Schenck, Esq., an attorney, to prevent him from practicing before him, his office being the writing of a private letter, afterwards given to the public, correcting the statement of the Judge upon the point of the Ku-Klux bill through Congress.

This rule was served on Mr. Schenck on Monday and he was required to answer on Saturday, thus depriving him of a lawyer, and placing him at the mercy of the court.

On that day the question was argued by learned counsel, who showed him he was acting without lawful authority; but Logan doggedly refused to give a decision and adjourned the court till the following Monday.

If our Legislature does not take action on this outrageous conduct of Judge Logan at this session we shall be grievously disappointed. We suppose a majority of the Legislature will ignore the law as an excuse for his conduct.—Raleigh Sentinel.

The Observer says that the ceremony of decorating the soldiers' graves, in Cloutier, on Tuesday, was attended by a large crowd of citizens, and business by a large number of citizens.

Everything passed generally smoothly, and every honored grave received its token of love.

The Newbern Times says that a small schooner was on Tuesday struck by a whirlwind, when at the entrance to Adams Creek, and both masts, with sails attached, were blown completely from the vessel.

From the Washington Chronicle.

The Treaty of Washington. Its Specific Provisions.—The Alabama Claims Separately Considered.

The treaty commences by reciting the authority of the high contracting parties and the purpose of the document.

THE ALABAMA CLAIMS.

The first subject is the Alabama Claims. These claims are to be adjusted by a tribunal of five arbitrators—one appointed by the President, one by the Queen of England, one by the Emperor of Brazil, one by the President of Switzerland, and one by the King of Italy. The Commissioners are to meet in Geneva to receive documentary evidence furnished by the respective governments—to hear counsel, one on each side, if desirable, on any particular point, and make award at the earliest possible time. If these Commissioners make award, it will be as a sum total to be distributed by the respective governments.

If they do not make specific award but only general rules and decisions, the board of assessors will be appointed to make the specific award in individual cases.

One assessor will be appointed by the President, one by the Queen, and the third by the Emperor jointly. The assessors will sit in Washington.

The regret of the British Government, as has already been reported, is frankly expressed at the escape and depredations of the Confederate cruisers.

The special rules of neutral obligation are laid down.

I. It shall be the duty of a neutral nation to use due diligence to prevent the building and fitting out or escape of any vessel intended to make war upon another nation with which it is at peace.

II. It shall be the duty of a nation not to permit such vessels to enter any of its ports for repairs, munitions, or supplies, or having entered, not to permit their departure.

III. It shall be the duty of a nation to use due diligence to prevent the violation of any of these obligations in any of its ports or waters.

These rules are not admitted to have been recognized as such by the Alabama.

The British will adopt these rules in consideration of the Alabama claims as if they had been in force, and the two nations bind themselves in the future to abide by them.

The Alabama claims are considered by themselves distinctly and as separate branch of claim.

OTHER WAR CLAIMS.

As to be settled by an ordinary joint commission, such as have been again and again appointed to settle claims between the United States and Great Britain, France, Spain, Mexico, Peru and other nations.

The claims to be considered are those relating solely to injuries to person or property by acts done or committed in the progress of the war. These commissioners are to sit in Washington—one to be appointed by the President, one by the two jointly.

THE FISHERIES.

As has been already published, all the sea fisheries (excluding river fisheries and shell fishery) are opened to the exactly reciprocal use of all citizens of both nations, with the privilege of landing anywhere to dry fish, cure fish, or otherwise.

The principle of the fishery, subject only to the local and general laws and regulations of landing place.

The relative value of this concession is to be considered and decided by the Board of Commissioners appointed as the preceding. If they decide that the privilege is worth a certain sum more to the United States than the reciprocal privileges are to the citizens of Great Britain, the United States shall pay that sum. This commission will sit in Halifax.

FREE NAVIGATION.

Of all waters, belong to the two Governments, are stipulated for citizens of both nations.

The canals being in part, private property, the two nations engage to urge the States and the Provinces respectively to grant full freedom of use of all facilities for water transportation to citizens of both countries.

FREE TRANSIT.

It is stipulated for all productions of either country through the territory of the other to a point within the same—as for example, of wheat from Milwaukee across Canada by the Grand Trunk railway, to Chicago, on the way to New York, in bond, under such regulations as the two nations may prescribe. Also for transit of foreign goods in bond from New York, Boston, Portland, and such other parts as may be named, to the coast of the other nation.

The terms of the treaty shall be in years, and so much longer as shall be satisfactory to both nations. Either party may terminate it at any time by giving notice of two years to the other nation.

THE INTERNAL REVENUE BUREAU, after having put the spirit distillers of the country to an expensive test, is now about to abandon their use altogether.

The war between San Salvador and Honduras continues. In a recent battle at Choluteca, which lasted three days, 800 Salvadorans and 190 Hondurans were killed and wounded. The Salvador government was overthrown.

The Chicago common council has ordered the tax on Senator Douglas's grave to be paid out of the general city fund, and proceedings for its sale have been discontinued.

DIED.

May 8th, 1871, of typhoid fever, at the residence of his father, at Strawberry, Rockport, New Hampshire, N. C. Miss MARY ELIZABETH, second daughter of James H. and Maria A. Durham, aged 22 years.

Thus early another beautiful flower, pure for earth, been transplanted to bloom in the eternal fragrance and joy of Paradise above. She was a bright star in the galaxy of female worth and loveliness. Gifted in intellect, warm in sentiment, and true in heart, she was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.

She was a true friend, a true friend, a true friend. She was a true friend, a true friend, a true friend.
